—Anna Dickinson is ill with pneumonia at Rockford, Illinois.

—In Texas, where farmers own 20,000 head of cattle, Goshen butter is used upon their tables.

—The proprietors of the Hartford *Courant* and of the Hartford *Press* have united their establishments.

—There is no instance on record of a well sustained system of judicious advertising failing of success.

—The improvements in the mode of parting gold and silver, which were commended in the late mint report, are to be introduced into all the branch mints.

—A Descendant of Columbus.—A private letter received here states that the only surviving descendant of Christopher Columbus is shortly to visit America.

—The Clevelanders intend to build a big hotel next summer on the lake shore, about four miles from the city. The site is said to afford fine opportunities for bathing.

—Bombay and Calcutta, on opposite sides of the peninsula of Hindoostan, are connected by a railway one thousand miles long, over which is traversed by trains in about four days.

—The Detroit *Advertiser* states that quite a large number of the fashionable ladies of that city "make their shoes fit, but the editor laments that this is done because "it is fashion, not economy."

—A Turn of Fortune's Wheel.—A lady living on Sumner street was yesterday notified by letter from Columbus, Ga., that she and her daughter had fallen joint heirs to $21,000.—*Nashville Banner.*

—Some of the Republican papers of Western Maryland are advocating the carving out of a new State, in order to separate the Radical Congressional District of Frank Thomas from the rebel portion of the State, and give it a more harmonious connection.

—No less than two thousand men are digging at the newly discovered mines at Pino Alto, in New Mexico, and are said to be making a lucky tally dug up one chunk valued at over two hundred dollars, and the rush to the mines from lower New Mexico was great.

—An educated Virginia farmer says that after having employed both white and white laborers, both foreign and native, he has come to the conclusion that the world cannot produce a more skillful and efficient farm laborer than a well trained Virginia negro who is willing to work.

—George Gordon de Luna Byron, claiming to be an illegitimate son of the poet and a noble Spanish lady, is one of the candidates for Governor of New York. He is about forty or forty-five years of age, has a prominent nose, dark eyes and curly hair, and really looks a good deal like the genuine portraits, not the idealized pictures, of the author of Childe Harold.

—Gold was accidentally discovered, a short time since, in Hancock county, Kentucky. An assay at the Philadelphia Mint developed $45,5 per ton of gold and $50 per ton of silver and other precious metals. A Philadelphia company has bought the ground, is now sinking a shaft, and contemplates the erection of a hoisting machine at an early day.

—The Evansville, (Ind.) *Courier* tells the story of an orphan girl who lost her father during the war, and visited that city recently in search of a home. She could not tell where her relations lived. She had left her father died she had fallen into the hands of a person who had been very cruel to her. The gentleman to whom she applied for a home in Evansville, knew a worthy lady in Posey county bearing a name which the girl remembered as that of an aunt. The lady being notified visited the city; a mutual recognition was the consequence, and the naked and homeless orphan was immediately provided with fine clothing, and taken home by the aunt.

—The union of British Columbia and Vancouver's Island under one government has given rise to great dissatisfaction. It seems that when the newly appointed Governor, at that time Governor of British Columbia, was in England, he represented his own colony as being in the most flourishing condition; and by way of contrast, drew a most gloomy picture of the state of things on Vancouver's Island. In consequence, he is very unpopular among the islanders, who accuse him of gross and intentional misrepresentations. All this is the result of that pernicious system by which England attempts to govern colonies thousands of miles distant, with whose interests she cannot be sufficiently acquainted, and whose wishes she often disregards, and still oftener does not know. It is not surprising that the people of Vancouver's Island are discussing annexation.

TERRIBLE EXPLOSION.

Disasters on the Rappahannock.

LIST OF KILLED AND WOUNDED.

NORFOLK, Dec. 8.—It is our painful duty to record a distressing accident, which occurred in the mouth of the Rappahannock this morning at about three o'clock, on board the steamer Kelso, plying between this city and Baltimore. The steam chest exploded, blowing out eleven stay bolts. The rush of steam was so great that three colored coal shovelers were killed, and from eighteen to twenty of the passengers scalded, some of them so severely that they will probably die. The following is a list of the wounded so far as ascertained: E. S. Osborne, Oxford, North Carolina; Joseph Chamberlain Ryder, chief engineer, painfully; James Davis, Newark, New Jersey, seriously; John Ramon, Newark, New Jersey, seriously; Stephen S. Hays, Newark, New Jersey, seriously; John Thomas, waiter, seriously; Hannah W. Botts, fireman, mortally.

Mr. S. Haney, one of the engineers of the boat is spoken of as having acted most heroically in cutting off the steam, otherwise the disaster might have been far more appalling. The concussion was so violent as to blow out a great part of the upper works on the starboard side and twist the iron pillars and break the heavy beams. The kindest attention was paid to the sufferers by the officers of the boat. The accident is attributed to the defective construction of the steam chest, which was put up with stays instead of socket bolts, and the culpable neglect of the inspectors who had overlooked this defect.

FROM ST. LOUIS.

A Congressional Seat Contested—Cholera Report—Heavy Snows on the Plains—Arrival of Union Pacific Railway Surveying Parties at Salt Lake.

ST. LOUIS, December 9.—Hon. John Hogan left for Washington yesterday. He will contest Congressional Pliles' seat in the fortieth Congress.

The official report gives the number of deaths from cholera, in this city, from July 27th to November 9th, as 3,327.

Very heavy snows are falling on the plains, and the outgoing trains are suffering.

Parties belonging to the Union Pacific Railroad recently arrived at Salt Lake City, one by the southern and the other by the northern route. Both routes are pronounced feasible.

An excellent grade was also found along the Humboldt river.

After nearly a week of mild weather, it turned suddenly cold last night, and the mercury has been several degrees below freezing point all day.

CINCINNATI, December 9.—The *Commercial's* New Orleans special dispatch says: Reliable intelligence from Monterey announce the complete overthrow of the Liberal army under General Trevino by the Imperial forces under Meija.

NEW YORK, Dec. 9.—The steamer Manhattan, from Havana, brings advices from the City of Mexico to the 22d, and Vera Cruz to the 28th ultimo. Maximilian was still at Orizaba. It was stated that he had agreed so abdicate, appointing Marshal Bazaine, and after leaving triumvirate, and appealing to the vote of the people to confirm this step.

The Imperialists are rapidly evacuating all the interior towns, and Gen'l General Douay is expected at the City of Mexico with the garrisons of San Luis Potosi, Mazatlin and other places.

The Liberals are concentrating some 25,000 men to attack San Luis Potosi and stand.

The Imperialists will soon evacuate Durango.

General Bayne and Castlenan, were at Vera Cruz, anxiously awaiting the arrival of Minister Campbell and General Sherman. An escort is to be prepared for them to the city of Mexico. The people at Vera Cruz manifest much joy at the expected arrival.

Among the passengers by the Manhattan, are Minister Campbell, returning to Washington from Mexico, and Lieutenant Bazaine, with special dispatches to Napoleon.

The City of Mexico correspondence states that on the 5th of November, a diligence from Zacatecas, containing fourteen passengers, was stopped within hailing distance of the gates of the city, and seven robbers. Four gentlemen were taken to the mountains, and three retained for ransom. One an American named Courtney, was sent to Quarato, with orders to raise the sum required and deposit them with certain parties in the city. The Imperial troops were dispatched after the robbers, who was soon overtaken, when a brisk fight ensued, in which forty of the soldiers were slain and the balance surrendered as prisoners, when they were at once led to trees, and the robbers amused themselves by shooting them from behind with lances, or backing them with hatchets.

The Liberal forces are everywhere springing up as if by magic. Colonel Escobedo occupies Durango with eight hundred men, and now he has nearly four thousand, and in the face of such facts, the Church party believe that they can raise fifty thousand men in this valley within a month.

Mexican papers of October 27th contain the official decree of President Juarez annulling the pardons which Maximilian granted certain Mexican Imperialists of Sonora.

The French are still at Durango, but the Liberals defeated the last body of Imperialists in the field.

A battalion of troops to aid Juarez, from San Francisco, sail for Mexico next Tuesday.

Southern Representatives in Council.

DISTINGUISHED PERSONS PRESENT.

Indian Relations in South-West.

CONFISCATION IN THE SOUTH.

Home for Friendless Children.

GOV. PATTON AND THE CONSTITUTIONAL AMENDMENT.

Appointments by the President, &c.

WASHINGTON, December 9.—Southern Senators and Representatives now in this city held a meeting for consultation last evening. Among those present were Governor Sharkey of Mississippi, Governor Parsons and Mr Foster of Alabama, and Senators Burnet and Roberts and Representative Ephirson of Texas. Considering the few southern members present in Washington, no definite action was agreed on. Should events require it, a general meeting of all the Southern Representatives may be called early in January. Senator John Pool, of North Carolina, arrived to-day. Senators Burnet and Roberts are to have an interview to-morrow with the President. Secretary Browning to consider Indian relations in the Southwest, with a view to restoring the ancient rights of those who participated in the rebellion, and securing the general good of freedmen of that section.

The desire for the repeal of the 15th section of the amnesty act, seems to be abating in view of the fact that nineteen-twentieths of the property affected by it has already been restored to southern owners, which restoration can not be disturbed. It will only affect only a few prominent rebels now absent from the country, and who own but little to be confiscated. It will be contended that the Senators that its tendency will be to disturb confidence, embarrass industry, and hazard loss to the Northern creditors of Southern merchants.

Senor Gabriel Gassacia, the Spanish Minister, who has been absent two weeks on a visit to New York, will return on Tuesday.

The ladies who inaugurated and have conducted the News Boys' Home in this city, have now in contemplation the widening of the field of operations, by making the home a receptacle of all friendless children who may stand in need of care and protection. A public meeting is to be held in the City Hall next Wednesday afternoon, to ad this design.

It is asserted from good authority that Governor Parsons, of Alabama, who is in this city, that the report that Governor Patton, of Alabama, recommended the adoption of the fifteenth amendment by the Alabama Legislature, is an error. The fact was, that Gov. Patton, under the advice of Gov. Parsons and other citizens of Alabama, called the attention of the Legislature to the Amendment and urged action upon it, in view of the recent important events, but without recommending its passage. Gov. Patton is recommended by his friends here as now acting personally favored the adoption of the Amendment at any time.

WASHINGTON, December 9.—Major N. W. Brown, at present Assistant Paymaster General, and Daniel McClure, of Indiana, have been appointed, under the new army bill, Assistant Paymaster Generals.

John P. Metcalfe, of Missouri, and William H. Johnson, of Ohio, have been appointed Paymasters.

The Quartermaster's Departments are yet to be filled. As yet, only four or five Paymasters and the Colonels and Lieutenant Colonels in the Quartermaster's Department, have been appointed.

Governor Worden, of North Carolina, arrived here last evening and is stopping at the Ebbitt House.

Death of an Editor—Dedication of a Unitarian Hall—A Naked-Truth Man After Editors.

NEW YORK, December 9.—Charles P. Basson editor of the Boston *Evening Commercial*, died suddenly from cholera, in this city, from July 27th to November 9th, as 3,327.

The Unitarians of this city dedicated a National Hall to purposes of their order this evening, Rev. E. H. Chapin delivering the opening address.

Rev. Mr. Smyth, the naked-truth man, delivered a philippic to-day against Editors.

NEW YORK SENSATION.

THE FENIAN PROGRAMME.

Outlines of a Daring Plan.

WELL TOLD BUT HARD TO BELIEVE.

NEW YORK, December 9.—The *Mercury* says: A very important meeting of the leaders of the Fenian movement has been held in this city, at which certain plans to aid the contemplated rising of Fenians in Ireland were discussed at considerable length. The most important feature in the plan of assistance from this side of the water contemplates the seizure of certain European steamers and to convert them into privateers. It was suggested to get command of the Queen City, Baltimore and Scotia, belonging respectively to the National, Inman and Cunard lines. This is to be accomplished by introducing the right men among the crews, sufficient inducements being offered to the crews which come over to leave the vessels, in order that their places may be supplied by picked men from the Fenian organization.

In conjunction with this part of the plan all available passages on board the steamers are to be taken by members of the order, and all the available room allowed for freight to be used for arms and ammunition, to be introduced as the personal baggage of passengers. In order to prevent, so far as possible, effusion of blood it is proposed to seize the vessels at night when the opposition of commanders would be likely to be the less effective. When once under the control of the Fenians the vessels can be easily transformed into privateers and would be exceedingly formidable, being swift, well provisioned and well supplied with arms. In case it is found impossible to make reprisals, the vessels are to steam into port under English colors and disembark the passengers with directions to join the different circles now in secret progress in England and Ireland. Such is a brief outline of this daring movement.

Intense Excitement and Alarm.

GOVERNMENT ANTICIPATES A RAID.

PREPARATIONS FOR BATTLE.

The Fenian Prisoners.

SWEETSBURG, Canada, Dec. 9.—An intense excitement has been created here within the past twenty-four hours. It is thought that the rumors to the effect that the Fenians would make an attempt to rescue the prisoners confined in this place, are well founded, and that there will be an immediate and formidable incursion from the States. The Canadian authorities is taking all necessary precautions to meet the threatening emergency. Troops have been ordered under arms, and all the hustle of a campaign is exhibited. Reinforcements have been ordered up from the Interior, and all the movements indicate serious trouble to be not far off. It is probable that the prisoners will be secretly removed to a more secure point. They are strongly guarded and the greatest vigilance is manifested.

FROM RICHMOND.

The Case of Dr. Watson—Arrest of Colored Preacher for Abduction and Seduction—Murder of a Man for Indicting Improper Letters.

RICHMOND, VA., December 9.—Dr. Watson, of Rockbridge, who was arrested last week under the civil rights bill, was brought before General Schofield, yesterday, and gave bail to the amount of twenty thousand dollars, to appear when called for.

A colored preacher named William Davis, was arrested last night, for the alleged abduction and seduction, of the daughter of Lewis D. Smith.

A man named John Driscoll, formerly of Richmond, was killed last Friday at Lye river warehouse, by S. G. Wood, for writing grossly insulting letters to his wife.

FROM CHICAGO.

Large Fenian Meeting—Men and Money Raised—The Illino's Senatorial Contest—Another Richmond in the Field.

CHICAGO, Dec. 9.—At the Fenian meeting held last night a speech was made by Senator Scanlon and other exiled Fenians. At the conclusion of the meeting about eight hundred men were enlisted in the army of the Irish Republic. A collection was also taken up, and a handsome sum was realized.

The *Times'* Springfield special says: Another candidate appeared in the arena for Senatorial honors. General B. Washburne's appearance will make Trumbull's chances doubtful. There are now five candidates, Trumbull, Washburne, Oglesby, Logan and Palmer.

FROM SAN FRANCISCO.

Large Mining Stock Dividend—Estimated Increase in the Importation of Sugar.

SAN FRANCISCO, Dec. 9.—The Savage Mining Company have declared a dividend of one hundred dollars in coin.

Mining stocks are dull and quotations nominal.

The total amount of raw sugar imported here during the present year is estimated at forty millions of pounds, being an increase of five millions over last year.

Are National Bank Stocks Subject to Taxation?—An Important Case, and Large Amount Involved.

NEW YORK, December 9.—An argument relative to bank cases in New York, will be heard on the 19th. The question is as to whether stock in National, as well as State Banks holding United States securities, is subject to taxation. The case has already gone through several judicial tribunals, and involves probably the largest amount of money ever before argued before the supreme Court. The counsel for the corporation of New York are Messrs. Ageman, Charles O'Connor, Waldo, Hutchins, and Judge Parker, of Albany; for the banks—Messrs Williams, Evarts, Beni. Silliman, John L. Burrill, Lyman Tremain and others. Eleven cases are involved in decision, and two counsel appear in each case. The city and tax payers are interested to the amount of five million dollars.

The Kelso Explosion—Names of Killed and Wounded.

NEW YORK, Dec. 9.—By the explosion of the steamer Kelso, as reported yesterday, the following persons were killed: Chief Engineer Reder, Assistant Engineer Wilkins and Joseph G. Hall, fireman, and John Rowan badly scalded. The following passengers were severely scalded: Rev. Cowing, Geo. Ricket, Edward Seechler, A. Saughtlife, Maj. Carter and eight infantrymen; Jos. Davis, Stephen Hays and Chas. Nixon. The injured passengers have been taken to the Naval Hospital.

How is Old Ireland?—Return of the Fenian Captain Lawler, of Connecticut—50,000 Armed Fenians Ready to Strike in Ireland.

NORWICH, Conn., Dec. 9.—Lieutenant Lawler, who has lately been imprisoned in Ireland as a Fenian, has arrived here, having been sent home by the English Government. He reports that the Fenians are armed and well drilled. 50 Fenians in Ireland, determined to strike for liberty by January 1st. Lieut. Lawler will soon return to Ireland to assist in the revolution there.

Decision Against an Express Company —Verdict for $10,000.

NEW YORK, Dec. 9.—In the United States Circuit Court, yesterday, the case of T. W. Kennard against Ben Holliday, for recovering ten thousand dollars which was sent by Holliday's Express for Colorado, but which was destroyed by attack of Indians, was decided in favor of Kennard for the full amount. The Judge ruled that the Express company was liable as common carriers, and a verdict was rendered accordingly.

The Surrender of Matamoras.

GALVESTON, Texas, Dec. 6.—The Rio Grande *Courier* of Dec. 24, says: At 12 o'clock last night, Canales surrendered Matamoras to Escabado. He had previously received a communication that he might surrender himself very early in the morning. The latter authorities of the Republic. A separation was also taken up, and a handsome sum was realized.

The *Times'* Springfield special says: Another candidate appeared in the arena for Senatorial honors. General B. Washburne's appearance will make Trumbull's chances doubtful. There are now five candidates, Trumbull, Washburne, Oglesby, Logan and Palmer.

The "Immortal J. N."

The "immortal J. N.," well known in our city by his periodical visits here, has been making a visit to Jeff. Davis. He had a long conversation with the ex-chief of the ex-"So-Called." The twin lights seemed to harmonize perfectly, and the immortal philosopher propounded his theory to Jeff in the following terms:

J. N. "I trust I have your entire sympathy; my position is a peculiar one, differing from the established ideas of the people of the South. The truth is, what I have determined to promulgate, and to relieve the press of the North and those who sympathized with us. South. The truth is, what I have determined to promulgate, and to relieve the press of the North and those who sympathized with us. During the late war I appeared before them in the light of a criminal, doing penance on the altar of prejudice, in order to thus assume all the responsibilities on myself. Here are the instruments of torture," (J. N. handing his manacle to Davis, who smiling said: "I am not quite as large as those presented to me,") "with which I have entered twenty-six dungeon cells. I could not have presented myself with these, but for the fact that I not stood neutral. I would have now no theory, and it is truly a great source of gratification to me to present myself before the people of the North that I do in the South. As you are aware, probably, I have travelled over nine States in the South since the war; so that the soldiery of both sides, where they beat me, can unite in the common bonds of friendship, and each fully sympathize with the other, for they are truly both patriots in their idea of truth. The one side fought under the Confederate flag, revered Washington fully as much as those under the Federal flag. Both armies honored that great leader. Where his ashes repose, the former, claiming Washington because he established this Government on the principles that they were contending for —the right of self-government. The latter, ignoring this position, claimed that the former were destroying the Government which he in his wisdom had founded. This you will see is a paradox, both right and both wrong. Both right, because each was right from their view; both wrong because each considered the other wrong. Thus patriotism impelled both to the sacrifice of their lives, each sustaining their notions, praying for the success of their arms and appealing to heaven to witness the justice of their own cause.

Female Belligerants.

Margaret Adams came to the office of Justice Lipp, on Saturday, and made an information against Jane Cummins, for assault and battery. It appears that the parties occupy a house on Carson street, in the borough of Birmingham. Margaret's lodgings being on the second floor, and immediately above those inhabited by Jane. In throwing out some dirty water, Mrs. Adams unintentionally wet some garments belonging to Mrs. Cummins, which were hanging on a clothe's line in the rear yard. This exasperated Jane, and rushing into the yard gathered some clay, and threw several pieces through the window of her neighbor, one of the clods striking Mrs. Adams in the face and hurting her severely.

After attempting to apologize in vain for throwing the water and requesting an extension of the olive branch on the part of her adversary, Margaret left the magistrate's office, on task in despair, and hastened to the magistrate's office, making oath as stated. Jane then expressed a willingness to smoke the calumet with her opponent, but then it was too late; the mighty arm of the law had entered into the quarrel, and nothing but an appeal to the blind goddess Justice could bring about a state of peace. Jane therefore was forced to enter bail for a hearing.

Sudden Death.—Hugh Martin, residing on Craig street, First ward, Allegheny, was found dead in his bed, yesterday morning. He had retired to bed the night before in his usual health. His sudden death was probably occasioned by apoplexy. The deceased was about thirty-five years of age, and leaves a wife and three children.

Larceny.—Alleta Duganne was before Alderman Taylor on saturday, charged with the larceny of a quantity of old iron from the residence of Peter Smidt, on Quarry street, in the Fifth ward. After a partial hearing the accused gave bail for her appearance at court and was temporarily released.

The Sharpsburg Shooting—Death of Jas. McCutcheon—Coroner's Inquest.

On Saturday morning James McCutcheon, the man who was shot on Thursday night by the negro, Robert Maloney, at Herman Raum's hotel, Sharpsburg, died at the hotel from the effects of the wound. Early on Friday morning J. G. Comstock, Esq., Justice of the Peace, residing in Sharpsburg, was sent for, and took the following deposition of the wounded man:

I boarded at Mr. Raum's tavern in Sharpsburg, on Thursday night, the 6th inst. I laid down on the front porch, and about eleven o'clock got up to go into the house; I found the front door locked, and went around to the dining room window, opened it, and was about to climb into the house, when some one in the room spoke to me, but I did not understand what he said; I told him that I boarded in the house, was not going to hurt anyone, and asked him to keep quiet; I was then shot by some one in the dining room; do not know by whom; I was in the window at the time; when that occurred I stepped back from the window and returned to the back porch.

Coroner Clawson was notified of the death of McCutcheon, and on Saturday afternoon empannelled a jury and held an inquest in the case. The following evidence was adduced:

Dr. G. R. B. Robinson, sworn.—I was called to see James McCutcheon, deceased, and found him on the front porch of Jerome Raum's, proprietor of Union Hote', Sharpsburg; had him carried in o the house; examined the wound; found ball had entered, but fluttering about an inch from the left nipple on the outer side, passing through obliquely downward and coming out about the middle of the small of the back; found the ball under the skin, or rather attached to the skin resting on his skirt; it was one of those long minnie balls. I am satisfied that this wound was the cause of his death.

George Friess, sworn—I heard a gun shot oft can't say who shot it; it was between eleven and twelve o'clock, on the night of the 6th of December, 1866; I was the arresting officer; after I heard the report, I heard some one calling, I ran out and asked what was the matter; was told that deceased was shot, and was told to take hold of Robert Maloney, the prisoner; I went up to him and said, do you know what you have done? He said, I shot him. I asked him why he shot him; he replied that deceased had come in and stamped his head. I said, how is that, when the man is outside; he replied, why he reached in through the window and pulled my hair. He afterwards said that deceased had reached through the window and tried to pull his hair. Afterwards when we were taking him into the city, he said that Squire Morton had given him a paper that gave him the privilege of shooting any person that molested him.

George Dilts, sworn—I was in bed when word came to me that a man was murdered; I came over to the Union Hotel; found Robert Maloney; had the cuffs on him, and took him to the city; on the road in he said he had shot James McCutcheon; he seemed not to mind it.

George Uffner, sworn—The deceased and I had been together with some four or five other; he left for home one way and we went another, he got over before us, and when we got home we found him lying on the porch; I went to get him a drink of water, and he said, "I got fixed up and said, "I know a way to get in." I stood at the corner talking to some one and deceased went on; about a minute afterwards I heard a shot, deceased came up to me and said he was shot; he sat on the porch, and I knocked at the door and woke Raum up; his son-in-law came to the door, I went in and right through to the dining room; I found the prisoner Robert Maloney sitting on a settee with a gun in his hand; George Friess had the gun; I took the gun from him; he said it wasn't the first man he had shot; there was no one in the room when I first went in but the colored man.

His Honor, Mayor McCarthy, and after due consideration, the jury returned the following verdict:

That the said James McCutcheon came to his death from a gunshot wound inflicted on the night of the 6th day of December, 1866, the gun being in the hands of one Robert Maloney; and that the said Robert Maloney did on the morning of December 8th, 1866, from the effects of said gunshot wound.

The man Maloney, who did the shooting, remained in the lockup after his arrest until the inquest had been held, after which he was committed to jail to await his trial on the charge of murder. He has been partially deranged for years, and has been employed in the County Poor Farm several times, but he being an active and muscular man, could only be restrained with the farmers during the summer season. About six months ago he purchased a gun, which he has carried ever since. He appeared to be laboring under the impression that persons were following him to do him bodily harm, and always kept his gun loaded to protect himself with. He says he does not regret what he has done for he has killed too many men and seen too many killed to care much for one more. He says that recently he has seen lying, in the woods about Sharpsburg, thousands of corpses, the remains of men whom the devil had shot because he was annoyed by them. The whole demeanor of the prisoner indicates insanity or partial idiocy.

Fire on Fourth Street.—Yesterday morning at about seven o'clock, an alarm sounded from station No. 15, the Central Station. It was ascertained that the occasion of the alarm was a slight fire in the upper portion of Messrs. Campbell & Aiken's Livery Stable, on Fourth street, near the corner of Wood. The fire was occasioned by the stove pipe from the office becoming over-heated and set fire to the floor of the loft. The fire was soon checked. The damage amounted to some $350 covered by insurance

Resigned.—We regret to learn that Chief McKain, of the Allegheny police, has resigned his position, for the purpose of entering upon a more lucrative business on his own account. Mr. McKain has, during his term, filled the position of Chief in a most satisfactory manner, and his successor has not been appointed, and probably will not be for some time.

Low Priced and Good—The Emerson Piano.

To meet the wants of the great number of persons who desire to possess a piano, but do not feel able to go to the expense or the costliest make, and yet would have only a good substantial one, we have made a most careful examination of all the lowest priced pianos made in the United States. The result of this examination is that we have found those made by W. P. Emerson, to be the best pianos for the price, and the cheapest good pianos that are made. They are most substantially built, on the soundest acoustic principals: the wood is the best quality properly seasoned; the tone most musical and full, each touch easy and elastic; each one is provided with the the full iron frame, and overstrung bass. They stand well in tune and wear well in every particular, as thousands can testify by experience. The difference in price between the Emerson Piano, and the more costly makes, is caused by the most rigid economy in the manufacture consistent with skill, excellence, and by a saving of labor on those parts, which neither effect the tone or durability. We do not pretend that the "Emerson" is the lowest priced piano made; many can be bought at a less price. Such pianos we do not keep, having found by our own and others experience that being so poorly made they soon give way, lose their tone, become unsteady and discordant, and give no satisfaction to the owner, but are a constant source of expense and annoyance. A piano of this kind is a bad investment, and hardly the present to make to any one can buy. We do not and will not keep them for sale. Finding the "Emerson" such a desirable piano, we at once secured the exclusive agency for Pittsburgh and surrounding country, and having made special contracts for a regular weekly supply for a long time to come, we can offer them at unusually low prices. All persons desiring the best cheap piano in the market, should not fail to examine the "Emerson" before purchasing any other kind. Liberal discount to clergymen, teachers and to customers. YOUNG MEN'S CHRISTIAN ASSOCIATIONS.

This modern mode of associated Christian effort, has inaugurated a new era among the churches. The admirable blending of the social element of the higher type, with the philanthropic and religious, has accomplished a work in the Church which heretofore had been sadly neglected. The organization is so happily constructed, that young men are reached through its various channels of labor in a way that the churches could not so readily and successfully attain. Most of the Christian Associations in the leading cities are formed upon the same basis, with a view of accomplishing certain objects; and yet so adapted that its efforts may be concentrated on *specialties*, as the opportunity may arise.

Previous to the war the whole system of Christian Associations had been toned up to a standard of excellence not attained in inception. Many of the crude and objectional features at the outset had been weeded out, and by concert of action upon great and vital points, by the affiliation of the various Associations into one National organization, greater benefits had been secured. Associations in the leading cities, North and South, by their indefatigable labors in epidemic visitations, furnishing the poor with food, clothing and coal, in prayer meeting efforts, and other works of disinterested service, have obtained an enviable name, and one worthy of the highest meed of praise.

When the rebellion broke out, the practical workings of most of the Associations were merged into and formed the nucleus of the grand and noble Christian and Sanitary Commissions. In every leading city, it will doubtless be found that many of the best workers connected with the various branches of the Christian Commissions and Subsistence Committees, had been previously drilled and educated in the Christian Association of their respective cities. For a time the work of the Christian Associations has been in a measure suspended, owing to the rebellion. But since the war these societies are reorganizing all over the country, and are generally enlarging their bases of operations. Various expedients have been recently adopted in large cities to accomplish greater good by this arm of service. It is a question, however, whether the latitudenarianism allowed in some of these institutions may not hinder the spiritual results heretofore attained and kept so prominently in view. There appears to be a growing tendency to secularize the institution, with a view, it is argued, to reach a larger number of young men than heretofore. When Christian Associations were first started, the main thing sought was the spiritual welfare of young men and the public generally. To this end union prayer meetings at noon-day were organized all over the land, under their auspices. Denominational differences seemed to be more easily harmonized in this way than by any other.

Reference to this point suggests a difficulty that has always attended the efforts of this organization, namely, the lack of a hearty co-operation by the ministry. Many clergymen have stood aloof from active co-operation simply because they thought these associations assumed work that properly belonged to the respective churches, and that it lacked the discipline and wise restraints, which ecclesiastical authority imposed, and, further, that it encouraged a species of independency that might prove detrimental in the hands of inexperienced and unskillful laymen, whose zeal outstripped their knowledge. The more liberal views, however, taken by ministers who have either personally co-operated, or else quietly acquiesced and interposed no objections to the organization is that a greater amount of good would be accomplished by this means, in connection with the ordinary church services, than the evils and irregularities feared by some.

As before stated, most of the Associations in the leading cities, in the work of reorganization, are enlarging the scope of their field of labor, and at the same time are incorporating a more liberal construction as to who shall enjoy membership, and thereby acknowledging all denominations upon an equal footing, heretofore not deemed orthodox, as interpreted by the leading evangelical denominations. Fears are entertained that these "broad school" views, so called in religious circles, and the want of proper discrimination in the membership, may serve to increase the opposition of ministers who have heretofore refused to co-operate when this laxity did not exist to the extent it does now. It is useless, however, to evade the truth that the spiritual element must be kept prominent in order to succeed and to retain the sympathy of the evangelical churches. The same vital principle must exist in the hearts of the members of these associations, which predominates in the members of the church, namely, the constraining love of Him who went about doing good while on earth. It is very desirable that there should be no ground for fears in this noble work.

The recent movement of reorganizing the Young Men's Christian Association in this city, meets with much favor among the large body of young men in Church fellowship in this community. Present indications promise a bright career of usefulness. The new organization is constructed upon a more liberal scale than the old one, judging from the elaborate constitution and by-laws just adopted. Perhaps too much is assumed, where but little constraint is needed in voluntary unpaid labor. All looks fair and encouraging, as all new projects of this kind usually do at first. There is work in this field of labor for many hands, and plenty of it too. But brave hearts and willing minds, under the inspiration from above, can easily overcome every obstacle in the way to the attainment of the grand object in view—the well being of young men.

The inactivity of the old organization was long a source of regret by those who had been diligent workers in it for years. The same spirit of lethargy in some degree existed in other places, because of the war, and because their work was done by the Christian Commission, and other benevolent agencies. The Young Men's Christian Association organized in this city, over twelve years ago, was inaugurated with just as much eclat as the present movement, and had a career of usefulness, until the war opened, of the most praiseworthy character. However, just before the rebellion occurred, under the impulse of a progressive spirit, which seemed justifiable at the time, the gallant band secured an eligibly located hall and fitted it up in elegant style, for a reading room and for social meetings. Under the disheartening influences of the first year of the rebellion—an influence which crushed the hopes of more institutions than this one—and the departure of a number of the active members to the seat of war, the Association was forced to succumb to the pressure, since which the organization has simply existed in form, the officers fulfilling their duties as the opportunity offered. Many of the active members did valuable service during the war, as members of the Subsistence Committee, and kindred organizations in this community.

It should be borne in mind too, that no institution of this character has had a more honorable record, than the Young Men's Christian Association of this city. Its good deeds were known far and wide. In addition to the indefatigable labors of its members, in the usual routine duties, the Association did wonders in *specialities*. The multitudes who were supplied with food, raiment, coal, and other necessaries of temporal comfort, during the rigors of two or three bitter winter seasons, will not soon be forgotten; and the faithful ministrations to the souls and bodies of the poor for years are like "ointment poured forth." Long and laboriously did its faithful members seek to promote union prayer meetings in our midst.

Such a record is a good legacy for the new organization to inherit, and one they may well be proud of. Let not the inactivity of recent years mar the good name of its previous history. It is noteworthy, that many of its active members, representatives of the principal denominations, are now prominent workers in their respective churches, and in other benevolent movements. And it is a significant fact that some of those who are actively engaged in the present commendable movement, by *their* failure in previous years, to do what they are now doing, the inactivity of the old organization might have been prevented. It is well to think of this fact, and let the past delinquencies be forgotten, and let every young man enter the Association, determined to do everything in his power to promote its interests, and all will be well.

TELEGRAPHIC SUMMARY.

No official news of Sedgwick's entry into Matamoras had been received in Washington up till Saturday last.

At latest accounts Sheridan was at Brownsville, Texas.

Rebel General Hindman writes to the President for pardon from Carlotta, Mexico. He desires returning to the United States, and writes a very doleful letter stating his present condition as very pitiful.

The telegraph informs us that the steamers Germania and City of Boston took out from New York 580,000 *specials*. Where are they all going to and what papers do they represent? We judge the message should have said that amount of specie.

The cotton crop of Alabama for the present year will reach one million five hundred thousand bales.

John Mitchell has connected himself editorially with the Richmond *Dispatch*.

The extension of the Chenango Canal is rapidly approaching completion. When finished this will connect New York with the coal regions of this State.

Insurance agents are busily engaged in saving the wreck of the steamship Scotland, off Sandy Hook.

The ship Hopewell cleared from New York on Saturday with nearly three hundred boxes of sundry articles for the Paris Exposition. The Packet Ship Mercury is waiting to receive the remaining articles accepted for the exhibition.

The Government has commenced civil action to recover $500,000 damages against John Devlin, the principal operator in the distillery frauds in Brooklyn.

The nine thousand ton steamship "Celestial Empire," for the new line plying between San Francisco and China, was launched at New York on Saturday last.

It is considered certain that the President will veto the bill creating the Department of Internal Revenue, if it should be passed.

The bill abrogating Southern State governments, if passed by Congress, will be surely vetoed.

The National Military Asylum Board have decided to locate an asylum at Milwaukee, and another in Ohio.

The Senate will pass over the President's veto the acts admitting Colorado and Nebraska as States, although Messrs. Sumner, Grimes, and perhaps two or three other Republican Senators, will oppose them.

The Senate Committee on Finance will hear arguments in favor of the repeal of the cotton tax at an early day, but the chances are that no change will be made.

It is hinted that the recent action of our Government relative to Mexico is regarded as nullifying the compact with France, and is so viewed by Napoleon.

The bill authorizing the public sale by the Treasury Department of two millions of dollars in gold every Monday in New York, will be adopted by committee in one or both houses. The sales are to have prominent notice in one or more newspapers in each of the two principal cities, the proceeds therefrom to be invested in interest bearing bonds of the United States. The whole subject of finance will be soon taken up by the Ways and Means Committee.

It is said to be quite doubtful whether the Senate will confirm the nomination of General Dix as Minister to France.

The Treasury held on Saturday gold to the amount of $96,722,000.

Two hundred and ten patents will be issued this week from the Patent Office.

The case of Sanford Conover, indicted on a charge of perjury in connection with the conspiracy trials, was taken up on Saturday in Washington.

Joseph Hankey, an extensive coal dealer of Baltimore, has brought suit against the Baltimore and Ohio Railroad Company to recover $25,000 damages for coal stolen by the Company while in transitu over their road.

The Georgia Senate has rejected the House bill prohibiting cars from running in that State on Sundays.

The news from the Rio Grande is thought to indicate implacable hostility to American intervention in the affairs of Mexico, and that any effort of the kind would cause a more united opposition than is now made against French intervention or empire.

It is reported at Galveston that the American troops have returned to Brownsville from Matamoras, Canales has surrendered Matamoras to Escobedo.

Much spoken of last month, were tried by the District Court at Brownsville, and sentenced to seven years' confinement in the penitentiary.

The Governor of Alabama, upon the adjournment of the Legislature, was complimented by the members. He spoke of their rejection of the Constitutional Amendment as a finality, and said the people would ratify their action.

Much dissatisfaction is expressed in Ottawa, C. W., at the respite granted the Fenians, and fears are entertained that the Fenians in that vicinity will burn the Parliament building.

A woman in Cairo, named Liebman, attempted to kill her two children Saturday, and afterward cut her own throat, nearly severing her head from her body.

Governor Worth, of North Carolina, has received an order from General Sickles prohibiting the infliction of corporal punishment by the courts of North Carolina.

Both the Ortega and Juarez factions in Mexico condemn General Sedgwick's occupation of Matamoras. Several officers belonging to the United States were insulted in Matamoras on the 2d inst., and one belonging to the 114th Colored Infantry was beaten to death by some of Cortinas' men. Fifteen men belonging to the raiders so

THE SENATORSHIP.

To the Editors of the Gazette:

You very well remarked a few days ago, that the contest for the Senatorship in Pennsylvania had narrowed down to a contest between Governor Curtin and General Cameron. I desire to say a few words in behalf of the latter.

He is a clear-headed, sagacious man, as has been demonstrated in his personal and political course. As Secretary of War, at the beginning of the Rebellion, he more truly comprehended the magnitude of the struggle than any other man connected with the Administration. Ever since he left the War Department, he has been in the van of public opinion—firm, decided, faithful. Everybody has known where to find him. Identified with all the interests of the State, he seems to me just the man for the place. Let our representatives give him their united strength and they will doubtless fulfill the wishes of ALLEGHENY.

TO THE DEBILITATED AND THE DECREPID.—For general debility and exhaustion of the powers of nature, whether occasioned by sickness, fast living, constitutional decay, old age, or any other physical or mental cause, the one thing needful and indispensible is HOSTETTER'S CELEBRATED STOMACH BITTERS. When the fire of life seems to be absolutely dying out in the system, and the mind, sympathizing with the body, is reduced alike to a state of lethargy, this mighty Restorative seems, as it were, to hit the sufferer out of the slough of despond, and recruit and reinvigorate the whole frame, mental and intellect. An old farmer in the Valley of the Monongahela writes thus to Dr. Hostetter: "I can compare the operation of your Bitters upon me to nothing but the effect of a rain after a long dry spell in the fall of the year. The rain falls on the parched ground and starts the second crop of grass, and your wholesome medicine seems to have started a second crop of life and vitality in me." And this is truly the effect of this grateful and powerful preparation. Ladies of weak constitution, or whose strength has been impaired by sickness or age, find it a most efficacious, and delightful Tonic, and it is administered with great success in many cases of debility of the female children. In fact, it is a much safer and surer cordial for the nursery than anything advertised expressly for that purpose.

C. C. SEELY'S

CHOLERA PREVENTIVE.

FOR REGULATING THE BOWELS, destroying Acidity in the Stomach, creating a healthy action of the Liver, assisting in the secretion of the Bile, and giving Vegetation to the secretions, and assisting the system to a healthy state, the PREVENTIVE is unsurpassed. It has been tried in thousands of cases, and has never been known to fail when the directions were strictly followed.

At this time, when we know not at what moment the fell destroyer may be upon us, nothing should be neglected that can be done to give the system a healthy action, and it is with a view to bring about this great deliberation, while of itself is the strongest remedy against the attacks of cholera, that this medicine is offered to an unbelieving public. Its action is chiefly Diaphoretic, and positive security to check the complaint—two actions required.

Seely's Cholera Preventive

Is the result of many years study and labor. The object of the proprietor is the first place was to produce a medicine that would not fail, and second place to him from the horrible suffering of Diarrhœa. Having attained his great end, he found that the mixture was an admirable remedy for that, in cases of diarrhœa its action was wonderful. Incipient Diarrhœa was cured by a few drops, and even when the disease had reached its height, how powerful efficacy of this medicine.

Having by actual experiment in his own case, and in the case of his family, established its curative powers, he offers it to the public in full confidence that it will effect all that is claimed for it.

In all the cases of bowel sick, no time that are folsted upon a too credulous public, it is not a universal remedy, but is intended for a remedy, and it only claims to be a cure of Incipient Cholera, Diarrhœa, Dysentery, or Kindred ills, arising for the most part from improper use of diet, &c.

In all the cases of the restorative powers, it is now offered to the public.

No house should be without a supply of it.

Invalids, Travellers and Travellers should always have it on hand.

It is easy to take, simple in its nature, and instantaneous in its effects.

Sold by all respectable druggists and country storekeepers.

PATENT.

LIGHT EQUAL TO GAS!

PATENT

Gas Condensing Burners,

can be used on any Lamp, and Dispense entirely with Chimney. The Light produced by the Burners specially one similar to that of Gas. The construction is such that the smoke is consumed in a self-feeding Chimney, and is wholly converted into flame. The burner does not depend directly upon the wick for its light, but burns the smoke which passes through and thereby.

Burns Less Oil Than Chimney Lamps,

And produces a more Brilliant Light than any other burner in the market.

(ADDITIONAL LOCAL NEWS ON FIRST PAGE.)

A Bank Case.

On Saturday morning in the United States Circuit Court, Robert Robb, Esq., made application to show cause why the judgment and all subsequent proceedings in the case of J. C. Reed for use of the First National Bank of Massachusetts vs. W. W. Eastman, should not be set aside at costs of plaintiffs. From the affidavit of W. W. Eastman, filed in the Court, it appears that he and George W. Keene entered into a partnership under the name of the "Maple Glen Coal Company," of which Keene was the agent and manager. Some time after this Keene met him at the St. Charles Hotel, and requested him to give him a judgment note for ten thousand dollars, made payable to J. C. Reed for the purpose, as alleged, of depositing it in the First National Bank at Salem, Massachusetts, as collateral security for the payment of notes of Keene and Reed held by the Bank, nearly due, and which he latter desired to have renewed. The affiant first refused, but was subsequently induced to sign the note. At the first time the note was read by Eastman, but on the second application it was not, and he alleges that an additional clause of waiver and inquisition was inserted without his knowledge; that subsequently the note in favor of the Salem Bank was confessed by Keene, (in which he, Keene, is a stockholder,) and on the day before this judgment his property, valued at thirty-five thousand dollars, was sold for two thousand. Eastman further alleges that the note was obtained for the purpose of defrauding him out of his property, and therefore seeks to have the proceedings set aside. The date of the note is November 1, 1865. Hon. H. Large, Esq., appeared for the Salem Bank.

The Educational Association Meeting.

On Saturday morning a large number of teachers assembled at the December session of the Association. The President, Mr. Luckey, called the Association to order, and its exercises were opened with prayer by Rev. Jones.

The Secretary, Miss J. Irvin, being absent, Prof. Taggart was elected to act during the session.

The Chairman of the Executive Committee, Prof. H. J. Gourley, presented the names of over fifty applicants for membership, all of whom were received into the association by a unanimous vote.

The regular lecture was delivered by Rev. Dr. Elder, and was entitled "Popular Education, its Progress and Importance." It was one of the ablest efforts of this able man. The Association desiring that the public should receive the benefit of the Doctor's research, requested a copy for publication, which was granted.

An essay by Miss Mattie Boggs was well received, and reflected much credit on the writer.

One of the most interesting features of the meeting was the excellent music discoursed by the choir.

Victim of a Woman's Hate.

An aged lady named Caroline Master came to the office of Alderman Lueh on Saturday, and instituted legal proceedings against Eliza Crossan for surety of the peace. Mrs. Master alleges that she is living in a continual dread of her neighbor Eliza, who seems to have set aside every object in life to accomplish one diabolical feat—that of making the wretched Caroline completely miserable for life, by telling stories about her, well calculated from their falsity to drive the angelic creature into the estimation of all those whose good opinions she prized. On Friday last, Eliza overstepped the boundaries of all her former acts in denouncing Mrs. Master in the public streets of this city as a woman whose chastity was not above suspicion, and finally threatening to murder her if she did not immediately get out of her way. Fearing that the threat should be put into execution, the injured one appeared before the magistrate above named and preferred the charge as stated. The belligerent Eliza was taken into custody, but after giving bail in the sum of $200 to answer at court, was released.

United States District Court.

On Friday, in the United States District Court, District Attorney Carnahan, filed a libel against the oil refinery owned by Henry Hinckley, and located in or near Titusville, Crawford county. The libel includes a large amount of crude and refined oils, and also all the implements and appurtenances of the refinery. The refinery was seized on the 15th of November, 1865, by Peter Boyd, Deputy Collector under the revenue law, by P. Mcough, Esq., Collector for the Twentieth District. A mob in Titusville was said and done to rescue it. Hence the libel of January next.

A libel was also filed against the "Parker Oil Refinery," associated by Henry Hinckley, and seized about the same time. It is said that both these Hinckley neglected and refused to make report and returns, as required by the Internal revenue law, and for this failure the refinery was seized on Nov. 15, by Deputy Mcough, of the Twentieth District. The motion is fixed for was granted by the Court, and made returnable at Erie, on the 7th day of January next.

Sneak Thieves.

This contemptible order of thieves seem to be driving quite a lively trade this season. We have already chronicled the larceny of overcoats sufficient to supply a small army with winter clothing. On Saturday night about ten o'clock, one of the gang entered and stole from the hat rack a fine overcoat belonging to a gentleman who was then present in the parlor. The coat contained a wallet covering a large amount of money in cheques and drafts, which will be of no use to any one but the owner, as payment has been stopped. The thief evidently watched his opportunity to obtain ingress into the hallway in the hope to secure the flight of all failed to discover another equally valuable one in close proximity. We hope the authorities will succeed in arresting a few of these contemptible sneak thieves, as they are certainly to advise people to keep the doors of their dwellings locked at all hours.

Another Sellers Robbery.

The following would seem to be of a piece with the Sellers robbery perpetrated some time since: On the 7th ult., three burglars visited the Bonner homestead, a mile below Garland, Warren county. The family consisted of two brothers and three sisters. Early in the evening a man called and represented himself as very tired. While regaling himself refreshments, at a signal, two accomplices rushed in with revolvers in their hands, and demanded all the valuables in the house, at the same time beginning a general search. While this was going on, one of the young ladies quietly slipped a box containing some $1000 or $1200 in bonds and currency out of the window, and ran to a neighbor's, effectually. The villains secured about $300 booty.

We Have Received,

from neighbor Pittock, a pamphlet entitled "Pittock in London," that, during the coming week, he will begin to open his great stock of holiday goods. We can assure those in quest of holiday goods, that they can be satisfied with Pittock's prices and goods.

Divorces.

—In the Court of Common Pleas, on Saturday morning, her holding applications were filed, with the reasons urged for the same:

Elizabeth Graham vs. William Graham; desertion.

Mary A. Sill vs. George F. Sill; desertion.

Thomas Hollis vs. Emma B. Hollis, desertion.

Julia Ann Abers vs. Rhamer Abers; desertion.

Treatment of Gov. Morton.

—Governor Morton is trying a new remedy—a Swedish invention called the "Iron treatment." The legs are placed in iron boots and subjected to an oscillatory motion of three hundred times a minute, and the arms similarly exposed, two thousand a minute. The object is to vitalize and increase the action of the muscles and nerves. The operation causes almost insufferable heat to the extremities. Its Excellency improves.

Burning of a Train of Cars.

—A switch was left open near Sugar Grove, about eighteen miles west of Meadville, on Thursday morning, in consequence of which train No. 19 from Corry ran off the track. A fire broke out in the train, caused by the explosion of an oil tank, and the engine and tender cars were consumed. A new engine, belonging to the Chicago and Great Eastern Railroad, which was being conveyed to its destination, was also destroyed.

False Pretence.

—Alonzo Dougherty appeared before Alderman Humbert on Saturday and, after giving bail in the sum of $500, to court in the sum of $1,000, to appear at the next term of Court, was released on bail.

Queer Apprenticeship.

—We learn that there is a lady in her eighty-fourth year, president of New Oxford, town, Gettysburg, having just commenced stripping tobacco, and intends to prepare and roll segars. She is quite active in all she does, and can do a good day's work for so old a lady.

Gleaganous Income.

—The income of old John Hemmendi, the well-known curiosity dealer, who has operated in trading along the run that bears his name, is estimated at half a million per year. He still lives in his ancient dwelling, and keeps his bonds and greenbacks placed in the wood house.

Pittsburgh Church Guild.

—A meeting of the Pittsburgh Guild will be held on Monday evening at 7½ o'clock, in the basement of St. Andrew's Church, on Hand street. The clergy and laymen of the Episcopal churches are earnestly invited to attend.

Sent to Marietta.

—The body of the child, murdered on Tuesday by her mother at the Packer Hotel, Whirling, was on Thursday placed in a plain coffin and sent to Marietta for burial.

Oil Production

—The various oil wells on the Holladen Farm are producing in an aggregate about 700 barrel of oil daily. On the Hiner Farm about 300 barrels daily.

Meadville Fire Alarm.

—The new fire alarm bell, to be placed in the cupola of the engine house, in Meadville, will weigh one ton.

EARLY TELEGRAMS.

FROM WASHINGTON.

Meeting of Southern Loyalists—Propositions to be Submitted to Congress—Meeting of Railroad Presidents.

WASHINGTON, December 8.—The meeting of Southern Loyalists last night was animated. A discussion on the subject of reconstruction on the territorial plan is meeting with much favor. A bill upon this basis will soon be submitted to Congress, and it would fail to do its duty if it hesitated to declare existing State Governments in the South nullities, and demanding that Congress shall establish new governments through the old Union men of the South.

Among other propositions submitted, was one providing that Congress shall appoint a commission to prepare a Constitution for each of the Southern States, which, after approval by Congress, should be submitted to the people.

The Presidents of the various railroad lines from Washington to New Orleans via Lynchburgh, Chattanooga and Grand Junction, met in this city, and perfected a schedule which shortens the line from New York to New Orleans ninety-two miles. The Great Southern mail will be ordered upon the line at once. The new schedule commences on Sunday next. After the first of January there will be two trains per day over this road.

Alabama Legislature—The Bill for Qualified Suffrage.

NEW YORK, Dec. 8.—An Alabama correspondent says that the bill recently introduced in the House of Representatives, on Saturday, providing for qualified suffrage, although it was laid on the table, is significant of a great change in the public sentiment. A prominent member of the Legislature stated that the bill could be passed, if any assurances were given that its passage would insure the readmission of Alabama. The people are much more opposed to universal suffrage than the old secessionists.

A bill incorporating the New Orleans, Mobile and Chattanooga Railroad has become a law.

Fenians Respited.

TORONTO, December 8.—Lynch, McMahon and other Fenians, received news of their three months's respite, with manifest relief.

The excitement about the Madoc gold fields still continues. The indications are very rich. The fields exist from thirty to fifty miles in extent.

A Petition for the Release of Colonel Meaney.

WASHINGTON, December 8.—Prominent Fenians are now getting petitioned the government in behalf of Col. Meaney, arrested in England, a reply was made that measures had been taken doubtless to secure his release.

Fears for the Safety of the Steamship Brittania.

NEW YORK, December 8.—The steamship Brittania, from Glasgow, is thirty-four days out, and fears are entertained that she has been lost. She had on board a large number of passengers.

FINANCE AND TRADE.

OFFICE OF THE PITTSBURGH GAZETTE, SATURDAY, December 8, 1866.

The New York stock quotations to-day, as reported by Robinson, McClean & Co., were as follows: Gold, 137¼; 1881's, 112¾; 5-20's old, 109¾; do '65, 107¾; 5-20s, new, 106¾; 7-30s, first series, 105⅝; do, 2d and 3d, 108¾. Michigan Southern R. R., 79½; Cleveland & Pittsburgh, 85¼; Pittsburgh, Fort Wayne & Chicago, 105; Erie, 71½; Western Union Telegraph Co., 46⅝; Chicago & Northwestern, 51⅝; Reading 110¼.

While gold is lower to-day by nearly one per cent, it will be seen, though the rest of the market is firmer at a slight advance throughout the entire Board list. The explanation is found in the growing ease in money, and the low rates for European exchange. The Treasurer is selling coin, but not to the extent alleged by the bear party. The Railway list improved in some instances 1¼ per cent, but there is but little room to look for permanent quotations. The money articles in the New York papers lead to the impression that lower rates will prevail the coming week.

Our local market is affected by a pressure for money. The deposits are lessoning rather more rapidly than usual at this season, in the banks, and there are more first-class stocks offering than heretofore. There is not, however, any marked decline in quotations for such securities. We report sales of Exchange Bank shares at 67½; Bank of Pittsburgh at 67; Citizens National held at 64½; M. & M. National at 63. There is but little doing in Gas or Bridge stocks. They are considered prime investments, and come but rarely on the market, and when they do, are picked up at once.

The Birmingham Gas Company have, we notice, declared their usual half-yearly dividend of four cent, payable at the office of the Treasurer, 73 Fourth street. No sales of Columbia during the day. We had 15 per share bid, but that is below the holders views. Marine keeps very quiet of late. Nominal quotations—8½ bid, 2,65 asked. Triumph, has apparently settled down to 1 bid, 1,10 asked. Sales of Fleming & Blood at 45@50.

—It is stated from Washington that the amount of gold thus far disposed of by order of the Secretary of the Treasury is between four and five millions. It is not Mr. McCulloch's purpose to sell gold except in small amounts, and for the present, probably, his sales are over. Mr. Boutwell's bill for stated sales of gold, now before the ways and means committee, is being discussed generally and freely, and meets with much opposition, especially, it is said, by the committee. To the rumors of sales of gold by the Secretary is, in part, ascribed the fall of gold at New York on Wednesday. These reports, through special dispatches to the New York papers, had some plausibility for the time being, because of the motive alleged, which was to get currency to pay the interest which falls due the 15th instant on the second series of Seven-Thirty notes. The New York papers now state on this head that there is quite currency enough at the Sub-Treasury in New York for the Seven Thirty interest, so that there will be no need of sales on this score, the Washington "specials" to the contrary, notwithstanding.

—A Chicago telegram, under date of December 6, gives the following particulars, in reference to the failure of Champlin:

John B. Champlin, a prominent grain speculator, of this city, has succeeded in perpetrating a big swindle on various parties here, and sloped for parts unknown. He bought grain to the amount of about $30,000, giving therefor his own checks on different banks in the city. It was subsequently found that said checks were worthless, as Champlin had nothing to his credit, in any bank. Last night he left the city. The police are endeavoring to apprehend the adroit swindler and bring him to justice.

The heaviest losses are Munn, Norton & Scott, grain merchants, of whom he purchased 5000 bushels of wheat, valued at $9,200.

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, SATURDAY, December 8, 1866.

The produce markets have again been dull and unsettled during the past week, with but little prospect at present of any immediate improvement. The operations in all of the leading commodities have been very much restricted, in consequence of a general disposition on the part of both consumers and dealers to buy very sparingly, and, as a matter of course, we have but few round lot operations to report. There have been no remarkable changes in values, although, generally speaking, the tendency is downward.

GRAIN—Wheat is dull and nominally unchanged. Oats dull, with sales reported at 38c to 39c in store. We quote 40c for small lots in store. Rye is in demand, and may be quoted firm at $1,25 to $1,30, as to quality. Corn is too unsettled to quote with any degree of correctness. Barley is dull and cannot fairly be quoted above $1 to $1,05, for prime to choice Spring.

FLOUR—The market continues dull and depressed, with a supply considerably in excess of the demand, which is restricted almost entirely to supplying the immediate wants of the consumers. We quote superfine at $11,50 to $12 for Spring Wheat; $11 to $13,50 for Winter Wheat; and $14 to $16 for fancy brands. Rye Flour is selling at $5 per bbl, and Buckwheat at $6 per cwt.

PROVISIONS—The stock of old Bacon, to use a common phrase, is about "played out," and the new crop is not yet in market. Lard is dull and nominal at 12 to 12½. Mess Pork—but little in market, and but little wanted.

MILL FEED—There is a fair demand for Middlings, and several sales were made during the week, at $1,80 to $2, the latter figure for prime white. There is some little inquiry for Shorts and Seconds, but in the absence of sales, we omit quotations.

SEEDS—Flaxseed is in steady demand at $3, while for Clover and Timothy Seeds, the inquiry is very light, and prices are entirely nominal.

BUTTER—There is no shipping demand for Butter, and the inquiry for home use is very light. Prime Roll is selling in a regular way at 28 to 30.

EGGS—In better supply, and while the market is a shade easier, prices remain unchanged, ranging from 37 to 38.

APPLES—Continue to arrive pretty freely, but with some inquiry for shipment and a fair home demand, prices are maintained, ranging from $2½ to $2¾ per bbl, as to quality.

POTATOES—Peach Blows are in steady demand and sell readily at 90 to 92 per bush and 65 per bbl.

SORGHUM—Is very dull with a supply largely in excess of the demand. We now quote at 70 to 75.

BEANS—Firm and prime Navy (new crop) sell readily at $2,75 per bushel.

PITTSBURGH PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, SATURDAY, December 8, 1866.

CRUDE—It is an old saying that after a storm there is always a calm. Yesterday, the operations in oil were unusually heavy, the reported sales reaching between twelve and thirteen thousand barrels in the aggregate, while to-day, the transactions all told, did not exceed one hundred barrels. The market was exceedingly dull to-day, there being no demand, apparently, either for home use or shipment, and while the offerings were comparatively light, buyers, to use a common phrase, were few and far between, and prices have undergone no quotable change, ranging from 8 to 8¼, bbls returned and in bulk, and 13 to 14, bbls included. We can report a sale of 32 bbls at 13, packages included; and 55 bbls (choice gravity) to go East, at 15. There was a negotiation pending for two thousand barrels on eastern account, at 14, free on board cars, but it had not been consummated at last accounts.

REFINED—There is no improvement to note in the market for bonded oil, either as regards demands or prices, and at present, the prospects for such a desirable event are by no means encouraging. Compared with the early part of the week, prices have declined from 3 to 4 cents per gallon, and even at the decline, there is no life in the market. We can report sales of only 500 bbls for immediate delivery, in Philadelphia, at 28½, and 1000 bbls, for January, at 30. Yesterday, there were sales at 29 to 29½, for immediate, and 30½ for January delivery, in Philadelphia, and it is said that 30 was the best offer that could be obtained to-day for either February or March. Free Oil is dull and lower, but the market is so unsettled, and prices so irregular, that it is impossible to give accurate quotations.

ARRIVALS—The following arrivals were reported to-day:

Fisher & Bro.	3300	R. D. Cochran	2400
Jas. Wilkins	65	E. J. Roberts	600
Sneathen & Co	2000		
Total			8265

New York Dry Goods Trade.

NEW YORK, December 8.—The Dry Goods market closes with a better feeling than apparent at the close of the last, but business is still only moderate and prices have a heavy downward tendency. There is no general decline in the prices of all goods, but to-day one article is marked down by a jobber to attract attention, and to-morrow another by some other house, until by degrees the whole list is found 10 or 15 per cent lower. These changes in a few kinds of goods occur almost daily, and where there are considerable, there is still a willingness to make concessions. Prime makes of all kinds of goods are, however, quite firm from the scarcity, and are but a little orifferson of the very low prices for other goods. The following changes in goods we o on the bulletin board at Stewart's: Bleached shirtings—Jamestown Mills, 4-4 at 24, a reduction of 2c a yard. Ticks—Amoskeag reduced 2c a yard. Brown Goods—Pacific, 1866 Atlantic, D, 1946; Pepperell reduced 2c. Denims—Amoskeag, 37½, a reduction of 1½c.

MARKETS BY TELEGRAPH.

Financial Matters in New York.

NEW YORK, December 8.—The money market is easy to-day and the demand quite moderate from the Stock Exchange. The general rate for call loans is 6 per cent., and very little new business at 7 per cent. There are more transactions at 7 per cent. on Governments. Currency is still flowing this way from the West and National Bank notes are getting very plenty. The Government will pay out $11,500,000 next week as interest on the Seven-Thirty notes, and this will further relieve the market. Prime discounts continue to pass at 6@7 per cent. Gold market dull but steady this afternoon, closing at 137⅜. Government securities dull and heavy this afternoon and at a decline of 1@¼ per cent. on rising prices: Registered 1881, 108¾@108¾; coupons 1881, 112¾@113¼; Five-Twenties, registered 1862, 106¾@106¾; do coupons 1862, 106¾@106¾; do coupons 1864, 106¾@106¾; do coupons 1865, 107@107⅛; Ten-Forties, coupons, 99⅝@100.

The stock market at its close was a little lower on West common, but otherwise steady; closing prices are: Ohio and Mississippi certificates, 29@29½; Western Union Telegraph, 46⅝@46¾; N. Y. C., 91¾@91⅞; Erie, 71¾@71⅞; Hudson River, 104@104½; Reading, 109¾@109⅝; M. C., 109¾@111; M. S., 79⅞@79⅝; Illinois Central, 115@115½; Cleveland and Pittsburgh, 84⅝@85; C. & T., 112@112½; R. I., 103¾@103⅞; N. W. 52@53; do preferred, 70¾@70¾; Ft. Wayne, 105@105½. Petroleum and mining shares dull. Petroleum stocks are: Bonnenhoff, 495; United States, 570; Manhattan, 150. Mining stocks—Benton, 125; Consolidated Gregory, 925; Corydon, 200; Gold Hill, 470; Gunnell, 90; Keystone Silver, 8; La Crosse, 125; Quartz Hill, 265; Do, 270; Smith & Parsons, 65.

New York Produce Market.

NEW YORK, Dec. 8.—Cotton dull and rather easier, at 35c for Middling uplands, and 35c for Orleans. Flour heavy and declining for medium and high grades, and without decided change for low brands. Round Hoop Ohio, $10@11,00; Trade Brands, $11,05@13,00. Wheat quiet and without material alteration. Barley a shade firmer. Corn 2@3c better and somewhat unsettled, at 1,06@1,12½ for shipping mixed Western in store, and $1,10@1,13 do afloat, closing at $1,10@1,11 in store and afloat, $1,06½ for unsound Western, and $1,15 for Western Yellow. Oats better, at 80@81c for Chicago and Milwaukee. Whisky quiet. Pork quiet and steady. Beef heavy. Beef Hams dull. Bacon quiet. Dressed Hogs steady, at 7¾@8c for Western. Lard quiet, steady and unchanged. Provisions dull. Petroleum dull, at 31c for Crude. Wool steady, at 33@65c for domestic fleeces, 21@35c for Western Texas, and 27@32c for California.

Louisville Market.

LOUISVILLE, December 8.—Sales of 80 hhds leaf tobacco; rates unchanged. Cotton—Sales of 128 bales at 30c for middling. Flour steady; Superfine, $9,25@9,75; No. 1 at $12,50@14. Red Wheat $2,60. Old Corn 90c; new 78@80c. Oats 55c. Pork $18,50@19,00. Lard 12½c. Green Hams 9½@10c; Sugar-Cured Shoulders 13c; Clear Sides 14½c. Sugar—New Orleans 12¾@14½c. Whisky unsettled and nominal at $2,26. Hogs Monday at $10,75. Stock of Bacon is light and nominal. Lard—tierces, 12½c; kegs, 14½c. Molasses 75@80c. Business brisk. No news.

Chicago Market.

RIVER NEWS.

The river during the twenty-four hours, ending yesterday afternoon did not vary much either way, the pier marks indicating about ten feet three inches. The telegraph reports the Allegheny rising, both at Franklin and Oil City, with between five and six feet in the channel. The weather yesterday was blustery and cold.

The Kate Putnam, from St. Louis, with a fair trip, is the only transient arrival we have to record.

The Columbia, from Cincinnati, was due last night and will doubtless be found in port this morning.

The following named boats were in port yesterday: Savanna, Yorktown, Arabian, Lenora No. 2, Kate Robinson, Bellvernon, Amelia Poe, Spray, Kenton, Ida Rees, Leondas, Kate Putnam, Delaware, Lorena, Bayard and Forest City.

The Argosy left Cincinnati for Pittsburgh on Friday, and the Silver and New York were advertised to follow on Saturday.

The Parkersburg packet Grey Eagle, did not get in until noon on saturday, having been delay by fog. She had a good trip, and left again the evening.

The Maggie Hays left for Cincinnati about noon on Saturday, and the Wauanita cleared for St. Louis in the evening. The former boat appeared to have a fair number of passengers, and but little freight, while the latter boat had a good trip, including about three hundred and fifty tons of railroad iron. The Pine Grove also got off for Cincinnati and Louisville.

The largest cargo of sugar and molasses, that has arrived at any port on the Ohio river since before the war for the Union, reached here on Friday from New Orleans, by the steamer Leonidas, Capt. M. A. Cox. There were one hundred and thirty-seven barrels of molasses and thirty hogsheads of sugar all of the new crop, and owned by Captain C. W. Batchelor.

The Bayard, Captain Geo. D. Moore, is the regular packet for Parkersburg to-day, leaving promptly at noon, and passengers and shippers would bear this in mind.

The Lorena, Capt. J. B Conway, and the Bellvernon, Capt. J. J. Darragh, both first-class boats, are announced for St. Louis.

The Ida Rees, Capt. Geo Brown, is now in turn for Cincinnati and Louisville. The Ida has been thoroughly overhauled and repaired and had some alterations made, among others the removal of her main cabin stairway lower to the upper deck, and is now in first rate condition for business.

The Kate Robinson, Capt. Robt. Robinson, and the Leonidas, Capt. M. A. Cox, are announced for Memphis and New Orleans.

The Carrie left Cincinnati for Pittsburgh on Thursday, and the Argosy, Silver Cloud and New York were advertised to follow on Friday. The Westmoreland and Camella, and the towboats Collier, Lioness, Alps and Dan Weal arrived at Louisville on Friday, and the Silver Cloud passed up. Capt. Dryden telegraphs that "coal commenced going over the falls to-day for the lower trade. Thirty-seven boats and barges are now over already."

Business has been excessively dull at the landing all the week, the offerings of freight for all points being very light, and worse than all, there are no indications of a present or any immediate improvement. It now takes about from eight to ten days to pick up anything like a trip for Cincinnati or St. Louis, and clouds a time for Nash ille or New Orleans. The river has been in fine navigable condition for some time past, so that there has been chance for freight to accumulate, and consequently no boat has to wait long, we might almost say, until a trip can be manufactured.

The Allegheny river packets appear to be doing a fair business, although there are but four of the six boats running. The Parkersburg packets, also, appear to be doing a fair business having as a general thing, good trips each way.

A couple of oil boats, loaded with oil, and belonging to Fisher & Bro., of this city, were destroyed by fire at "Miller's Eddy," on the Allegheny River on Friday morning last. The boats were set on fire accidently by a lighted lamp in the hands of a man, coming in contact with the oil. Fortunately, the crews were lost, the boats being tied up to the bank at the time.

The Ezra Porter and Minnie left St. Louis for Pittsburgh on Tuesday. The St. Louis *Democrat* of Wednesday says:

The Ezra Porter left for the Ohio in very light condition, but perhaps had engagements at the Upper Cape. Capt. Charles McDonald are loading the Mary McDonald for New Orleans. The Glasgow leaves this evening for Pittsburgh, with a full load. She has a splendid new cabin, built for Capt. Adam Jacobs new steamer Elisha Bennett, new being completed at Brownsville, Pa.

The St. Louis *Dispatch*, of Wednesday, says: We were shown a letter from Washington on Saturday, that conveys intelligence that the Local Inspectors of St. Louis are shortly to be relieved from office. The letter was from Department Headquarters, and requested the proper persons to make the suitable nominations for office, and forward them on immediately.

We regret to learn that Mr. Locke, river editor of the Cincinnati *Gazette*, has been confined to his home with a severe attack of typhoid fever. He was improving on Friday evening. We clip the following items from the Cincinnati *Commercial*, of Friday:

The Bertha, from Arkansas river, brings one hundred and thirty-one bales of cotton from of the plantations of Messrs. Paren & McLean, on that stream. Our neighbors of the *Enquirer* have been more fortunate with their cotton crop than many of their brethren.

....When the Sam. J. Hale passed up Wednesday evening, the Westmoreland was laying at the Indiana shore, near the head of Big Bone, listed over to the side, and discharging freight on the bank. The Havana reports meeting the Westmoreland under way, however, near Madison. We make mention of the fact that it was generally rumored along the levee that she had sunk. The Westmoreland is bound for New Orleans. Our Jeffersonville dispatch says she descended the falls in the evening.....At the annual election of Directors of the Atlantic and Mississippi Steamship Company, held in St. Louis, on the 3d inst., the following gentlemen were elected: John S. Roe, John C. Bonfiger, Edward Ames, Gerrard B. Allen, Geo. Pegram, Alex. Smith, Walter, R. Carter, Theo. Lamville, Jos. Brown, Sr., Sidwell, David Gibson and James W. Gaff, of Cincinnati.
